OER / Digital Media Evaluation Checklist

Adapted for EMS / Paramedic Education (Clinical Accuracy, Standards & Audience Focus)

RESOURCE IDENTIFICATION

Evaluator Name:	Mark Johnson
Date:	10/25/26
Resource Title:	Comfort is Required
Resource URL:	https://mj72244.github.io/
License:	CC BY
Intended Audience:	Paramedic Con Ed
Applicable Standards:	Maryland Protocols

EVALUATION CRITERIA

Rate each criterion: Meets | Partially meets | Does not meet | NA

Criterion	Rating	Evidence / Notes	Meets Criteria?		
Alignment with Learning Objectives / CLOs	Meets	CLO 1 - treatment for pallative care patients	Y		
Content Accuracy & Reliability (general)	Meets	Accurate review of Maryland law			
Clinical Accuracy (evidence-based, medically correct, protocol-consistent)	Meets	Accurately references Maryland law and protocols			
Recency / Currency of Clinical Content (guideline dates, last update, current standards)	Meets	Last updated October 2026			
Alignment with Applicable Standards (MD protocols, ACLS, PALS, NREMT, etc.)	Meets	Matches 2026 MD Protocol			
Quality of Materials / Production Quality	Meets				
Clarity, Readability & Organization	Meets				
Modularity & Adaptability (Remix potential)	Meets	Can be incorporated or remixed with attribution			
Interactivity & Learner Engagement	Partially meets	No interactivity but does engage in the reason for pallative care			
Accessibility / ADA Compliance	Meets	Includes audio for visually impaired			
License Supports Intended Use (Reuse/Remix/Share)	Meets	CC BY			
Suitability for Intended Audience (paramedic students / paramedics)	Meets	Supports decision making by paramedics			
Additional Criterion (specify):	NA				

ACCESSIBILITY / ADA COMPLIANCE DETAILS

Alt text provided for informative images, charts, and graphs	Does not meet
Captions and/or transcripts for audio/video	No captions
Sufficient color contrast	Yes
Compatible with screen readers / keyboard navigation	Partially Meets
Tables have proper headers; no merged cells issues	NA
Logical heading structure	NA
Other accessibility notes	Does not interact with macOS VoiceOver easily

SUMMARY / COMMENTS

Overall Assessment & Recommendation:

License allows remixing and use wutg attribution. Stronly supports the ethical considiration of pain management in MOLST Option B patients.

Strengths:	Ethical pain management of DNR patients
Limitations / Areas for Improvement:	Lack of interactivity
Alignment with specific CLO / Module Objective:	CLO 1 - treatment of MOLST/DNR patients
Decision:	X Adopt as-is ☐ Adopt with adaptations ☐ Do not adopt ☐ Needs further review

Blank Template – Reusable for EMS/Paramedic OER Evaluation. Yellow cells are for input. Rating column uses dropdown.
